

NMR DISCUSSION GROUP MEETING
UNILEVER RESEARCH. PORT SUNLIGHT LABORATORIES.
22ND MARCH 1991

PROGRAMME

10.30	Coffee
11.00	Brief Introduction
11.05	'What can NMR tell us about Liquid Crystals?' Professor G Luckhurst, University of Southampton
11.45	'Use of the Minispec in NMR applications of Heterogeneous Systems' Professor W Derbyshire, RHM Dept. of Research and Engineering
12.05	'Applications of PFGNMR techniques to Composites' Dr E G Smith, Unilever Research, Port Sunlight Laboratory
12.25	Lunch
14.00	'Molecular Interactions and Long Range Structures of Surfactant Liquid Crystals' Professor G J T Tiddy, Unilever Research, Port Sunlight Laboratory
14.40	'NMR Studies of Colloid Systems' Dr T Cosgrove, University of Bristol
15.00	Tea
15.20	'High Pressure NMR Spectroscopy' Dr D Gillies, Royal Holloway and Bedford New College
16.00	Close
