

NMR Discussion Group: Christmas 2001 Meeting

Tuesday 18th December

King's College London (Strand Campus)

Meeting Chairman: Dr David Neuhaus

Programme

- 10.00:** Registration & coffee
- 10.30:** **Dr. Jim Feeney**, National Institute for Medical Research:
"NMR Protein studies"
- 11.15:** **Dr. Stephen Matthews**, Imperial College London:
"NMR studies of large proteins involved in bacterial infection"
- 11.40:** **Dr. Holly Canuto**, University of Oxford:
"Solid state NMR: A Probe for Solid State Dynamics in Organometallic Systems"
- 12.00:** **LUNCH**
- 14.00:** **NMRDG Business**
- 14.10:** **Dr. David Apperly**, University of Durham:
"Solid-state NMR Investigation of the Stability of Amorphous Drugs "
- 14.35:** **Dr. Mick Mantle**, University of Cambridge:
"Recent Developments of Dynamic MRI in Chemical Engineering"
- 15.00:** **Prof Gareth Morris**, University of Manchester:
"Some Like It Hot: VT DOSY and gradient shimming"
- 15.45:** **Tea and Close**
