

**NMRDG Second Meeting  
National Physical Laboratory Teddington  
Monday 14<sup>th</sup> September 1964**

PROGRAMME

|              |                                                                                                                                                |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| 10.30-11.00  | Coffee                                                                                                                                         |
| 11.00 -11.10 | Welcoming address                                                                                                                              |
| 11.10-12.25  | "Recent Developments in High Resolution N.M.R. Spectroscopy".<br>Dr. J.N. Shoolery, Varian Associates, California, U.S.A.                      |
| 12.25-1.00   | "Some Applications of N.M.R. to Organic Chemistry".<br>Prof. A.R. Katritzky, University of East Anglia,                                        |
| 1.00 -2.00   | Lunch                                                                                                                                          |
| 2.00-2.15    | Group Business                                                                                                                                 |
| 2.15-2.50    | "Nuclear Resonance studies of polymer chain conformation in solution".<br>Dr. T. Connor, Basic Physics Division, National Physical Laboratory. |
| 2.50-3.25    | "High-resolution fluorine magnetic resonance".<br>Dr. I. J. Lawrenson, National Chemical Laboratory.                                           |
| 3.25- 4.00   | "N.M.R. of orientated molecules".<br>Dr. K.A. McLauchlan, Basic Physics Division, National Physical<br>Laboratory.                             |
| 4.00.        | Tea.                                                                                                                                           |
