

NMR DISCUSSION GROUP

QUEEN MARY COLLEGE

17TH DECEMBER 1965

PROGRAMME

- 10.30 COFFEE
- 11.00 Welcoming address.
- 11.05 Current NMR research at Queen Mary's College.
Dr. E. Randall (Queen Mary College)
- 11.45 Application of NMR to the determination of molecular structure.
Professor J. A. Elvidge (Battersea College of Science and Technology).
- Discussion of the above two papers.
- 1.00 LUNCH
- 2.00 Group business.
- 2.10 Application of NMR to the investigation of stereo regular polymers.
Mr. R.G.J. Miller (I.C.I. Petrochemicals and Polymer Group, Runcorn).
- 2.50 NMR study of some polysulphones.
Mr. M. Cudby and Mr. H.L.A. Willis (I.C.I. Plastics Division).
- 3.20 NMR study of some polybutadienes.
Dr. P.R. Sewell, (Dunlop Research Centre, Birmingham).
- 3.40 Discussion on the above three papers.
- 4.05 TEA
