

**N.M.R.D.G. MEETING**  
**University of Liverpool**

Monday. September 12th 1966.

- 10.00 Welcoming Address.
- 10.05 Application of N.M.R. in the study of alkaloidal structures.  
Professor A.R. Battersby, University of Liverpool.
- 10.45 Coffee
- 11.15 Proton double resonance studies of some new indole alkaloids.  
Dr. W. von Philipsborn, University of Zurich.
- 12.10 Discussion of these two related papers.
- 12.45 Lunch.
- 2.00 Group Business.
- 2.15 N.M.R. Investigation of complex formation in Porphyrin solutions.  
Mr. D.B. Macdonald, University of Liverpool.
- 2.35 Discussion.
- 2.50 Some stereochemical aspects of a substituted tetrahydrofuran isolated from  
Chaetomium Coarctatum.  
Dr. G.R. Bedford, Imperial Chemical Industries Ltd., Pharmaceuticals Division,  
Macclesfield.
- 3.10 Discussion.
- 3.25 N.M.R. spectra of some 1,4-oxathione-S-oxides derived from carbohydrates.  
Anisotropy of the S→O bond.
- 3.45 Discussion.
- 4.00 Tea.
