

Programme

N. M.R.D.G. Meeting

National Physical Laboratory, Teddington

Friday, 16th December, 1966

10.30 Coffee.

11.00 Welcoming Address.

11.05 The computation of N. M. R. spectra
Dr. R.K. Harris (University of East Anglia).

11.45 Discussion.

12. 00 Heteronuclear Decoupling
Dr. W. McFarlane (Sir John Cass College, London).

12.45 Discussion.

1.05 Lunch.

2.00 Group Business

2.05 Conformational Analysis
Dr. H. Booth (University of Nottingham).

2.40 Discussion.

2.50 The N. M. R. spectra of cis and trans 2, 6-dimethylpiperidines
Mr. J.H. Little (University of Nottingham).

3.05 Discussion.

3.10 The N. M. R. spectra of some conformationally rigid molecules
Dr. E.F. Mooney (University of Birmingham).

3.25 General discussion of problems associated with conformational analysis.

3.45 Tea.
