

N.M.R.D.G. Meeting, Royal Holloway College,  
Englefield Green, Egham, Surrey.

THURSDAY 15th JULY 1971

- 10.30 Coffee
- 11.00 Welcoming Address
- 11.05 Isotope effects. Miss E. W. Hughes and D. Gillies.  
(Royal Holloway College)
- 11.35 Discussion
- 11.45 Analysis of the "Europium Shifted"  $^1\text{H}$  spectrum of trans - decahydroquinoline.  
H. Booth and D. V. Griffiths. (University of Nottingham)
- 12.10 Discussion
- 12.15 Some quantitative applications of NMR. R. A. G. Carrington.  
(Shell Research, Sittingbourne)
- 12.45 Discussion
- 1.00 Lunch
- 2.15 Group Business
- 2.20 TMR. Professor J. Elvidge.  
(University of Surrey)
- 2.50 Discussion
- 3.00 Applications of  $^{13}\text{C}$  NMR to the solution of structural problems,  
P. S. Pregosin and E. W. Randall. (Queen Mary College, London)
- 3.25 Discussion
- 3.30 Use of highly expanded spectra. D. Gillies.  
(Royal Holloway College)
- 3.50 Discussion
- 4.00 Tea
