

NUCLEAR MAGNETIC RESONANCE DISCUSSION GROUP MEETING

UNIVERSITY OF EAST ANGLIA

THURSDAY APRIL 6TH 1972

PROGRAMME

0930 - 10.15	Dr. R. K. Harris (East Anglia) "N.M.R. Band shape Analysis"
10.20 - 10.40	Mr. K. M. Worville (East Anglia) "A Particular Case Study of Relaxation and Saturation Effects on Band shape"
10.45 - 11.15	COFFEE
11.15 - 11.55	Dr. J. Sanders (Cambridge) "Shift Reagents in polyfunctional systems"
12.00-12.20	Dr. M. Murray (East Anglia) "Some Recent NMR Studies of polyphosphorous compounds"
12.25 - 12.50	Dr. R. Jones (Essex) "Substituent effects on carbon-13 chemical shifts in piperidines and piperazines"
13.00 - 14.15	LUNCH
14.15 - 15.15	Group Business including unscripted discussion on future of NMR, NMRDG, etc., led by L. Sutcliffe
15.15 - 16.00	Dr. K. J. Packer (East Anglia) "NMR Studies of water in biological systems"
16.05 - 16.25	Dr. P. Belton (East Anglia) "Pulsed NMR studies of water in striated muscle"
16.30	TEA
17.15	Bus leaves for the 17.40 train to London from Thorpe Station, Norwich.
