

NMRDG Meeting
18 December 1980
Chelsea College

10.00	Coffee
10.30	2-D Spectroscopy in Organic Chemistry J. Sanders, Univ. of Cambridge
11.20	Heteronuclear 2-D NMR G. Morris, Univ. of Oxford
11.45	Further Applications of the 2-D Technique D. Turner, Univ. of Southampton
12.00	Discussion
12.15	Group Business
12.30	LUNCH
2.00	CIDNP: A Review and some Recent Work in Biochemistry R. Kaptein, Univ. of Groningen
3.00	Preliminary Experiments on Application of NMR Techniques to the Study of S _H 2 Reactions of Organosulphur and Organo-selenium Compounds J. Perkins, Chelsea College, London
3.15	Observation of CIDNP Effect During an ¹⁵ N NMR Study of Aromatic Nitration J.P.B. Sandall and J.H. Ridd, Univ. College, London
3-30	TEA

We gratefully acknowledge sponsorship of this meeting by Nicolet Instruments Ltd. The 200 MHz instrument supplied by Nicolet will be on view after tea.
