

NMRDG Meeting

Department of Chemistry, University College, Cardiff

29th March 1983

- 10.30 Coffee.
- 11.00 Some Applications of lanthanide induced shifts in conformational analysis.
Dr. R.J. Abraham (University of Liverpool).
- 12.00 ^1H NMR studies of inversions of octahedral complexes.
Dr. P.A. Williams (University College, Cardiff).
- 12.30 Lunch.
- 2.00 Conformation and motion in peptides and proteins.
Dr. O. Howarth (University of Warwick).
- 3.00 Spin-echo and relaxation measurements on coal liquefaction products.
Dr. C.E. Snape (National Coal Board).
- 3.30 A study of the reactions of nitrogen mustard using ^{13}C labelling.
Dr. B.T. Golding and Dr. M. Kebbell (University of Warwick).
- 4.00 Tea.
