

INDUSTRIAL NMRDG TO BE HELD AT ICI WILTON

11 September 1986

PROGRAMME

0930 -1040	Tours of Wilton Centre facilities for early arrivals
1030	Coffee
1055	Coach arrives from Darlington Station
1100	Introduction
1115	"NMR Studies of Diffusion - Applications in Polymers, Graphites and Zeolites" T Cosgrove - University of Bristol
1215	"Polymer Characterisation by NMR" A Bunn and R A Hearmon - ICI Petrochemicals and Plastics Division
1245	Lunch
1400	"A Do-it-Yourself Approach to Increased Productivity" P Regan - Shell, Sittingbourne
1430	" ¹⁵ N NMR Spectra of Nitrogen Heterocycles" M Kinns - Pfizer, Sandwich
1500	Tea
1520	"Quantitative NMR Analysis of Fossil Fuels: An Assessment of Recent Advances" C Snape - NCB, Stoke Orchard
1540	"A Practical Approach to the Characterisation of Coals and Related Materials by Solid State NMR" N Evans, A Carr and J E Williamson - British Gas, London
1620	"NMR Imaging Studies of water ingress in polymeric materials" I Herbert - Shell, Thornton
1650	Close - Coach to Darlington for 17.39
