

Modern Developments in Biomedical NMR

A One Day Symposium at NIMR

**A celebration of Jim Feeney's 65th Birthday
Friday 6 July 2001**

10:00 Coffee

Chair: Prof J W Emsley

10:30 Dr A M Gronenborn (NIH). Studies on Cyanovirin-N, a potent HIV activating protein

11:10 Prof I D Campbell (Oxford). NMR and modular proteins

12:00 Lunch

Chair: Prof L H Sutcliffe

13:30 Dr B Birdsall (NIMR). DHFR from beginning to the end

14:10 Prof P G Morris (Nottingham). Reading your mind with NMR: food for thought

14:50 Prof N Boden (Leeds). New materials from bits of protein

15:30 Tea

Chair: Sir Arnold Burgen

16:10 Prof G C K Roberts (Leicester). Drugs, proteins and NMR

16:50 Prof D H Williams (Cambridge). Vancomycin – Feeney and beyond

17:30 Prof E D Laue (Cambridge). Protein-protein interactions in cellular control

Registration essential: contact Berry Birdsall, bbirdsa@nimr.mrc.ac.uk. Talks free for NIMR personnel; buffet lunch/tea/coffee £8; dinner £25
